

RD Certificate Number: EWS976

Procheck Adapt

Description

This is an assessment of Proctor Procheck Adapt, which is a high performance variable permeability vapour control layer.

The vapour control layer is designed to protect the building fabric from potential risks of condensation and acts as an airtight barrier.

The barrier adapts to seasonal changes and humidity levels and becomes more resistant in winter and more permeable in summer.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the scope of this registration.

Validity

This system has been checked for compliance in accordance with English, Welsh and Scottish Building Regulations

Registration was first issued on 31/03/18 and is valid until 31/03/22 providing there are no amendments to applicable regulations.

Issue dated 21/03/2019
