

RD Certificate Number: EW590

YBS BreatherQuilt

Description

This is an assessment of YBS BreatherQuilt; a water vapour permeable (breathable) insulation material made up of layers of metallic foil and wadding connected by double T plastic clips to avoid thermal bridging. For use in slate and tile roofs of dwellings and buildings with similar temperature and humidity conditions designed and constructed in accordance with the relevant clauses of BS5534.

Scope of Registration

Use in dwellings and buildings with similar temperature and humidity conditions and correctly detailed tiled or slated pitched roofs with a slope no less than 20° and no greater than 70° designed and constructed in accordance with the relevant clauses of BS 5534. Not to be exposed to organic solvents or plasticisers.

Validity

This system has been checked for compliance in accordance with English and Welsh Building Regulations

Registration was first issued on 01/09/15 and is valid until 01/09/22 providing there are no amendments to applicable regulations.

Issue dated 06/01/2020
