

RD Certificate Number: EW543B

Mike Wye & Associates Ltd - Glasscrete Flooring System

Description

This is an assessment of the Glasscrete flooring system as supplied by Mike Wye & Associates. Glasscrete is a system designed to provide an insulated breathable ground bearing floor slab, primarily for buildings that will benefit from a breathable, flexible floor construction.

A Glasscrete floor slab is constructed using natural hydraulic lime powder (NHL) with sand aggregates and the insulation is achieved by the use of a 'hardcore' layer of compacted Geocell lightweight foamed glass aggregate. The system also incorporates geotextile membranes, cork perimeter insulation and may incorporate under floor heating systems.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the full scope of this registration.

Validity

This system has been checked for compliance in accordance with English and Welsh Building Regulations. Registration was first issued on 10/03/16 and is valid until 10/03/23 providing there are no amendments to applicable regulations.

Issue dated 14/01/2020
