

RD Certificate Number: EW537C

Gerband 586 Uni-Tape

Description

This is an assessment of Gerband 586 Uni-Tape that is used indoors for the air-tight bonding and sealing of penetrations and overlaps to wind and vapour barriers. It is a pliable and stretchable PE-film sealing tape with moisture-resistant polyacrylate adhesive of extremely high tack; it offers permanent adhesion as well as outstanding ageing resistance.

The PET reinforcement helps preventing overexpansion of the adhesive tape. The slight elasticity in connection with tear resistant thread reinforcement makes the sealing tape universally suitable for sealing many types of surfaces. The tape has an aggressive adhesive – it even sticks at extremely low temperatures and conforms to DIN 4108-7.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the full scope of this registration.

Validity

This system has been checked for compliance in accordance with English and Welsh Building Regulations.

Registration was first issued 07/10/16 and is valid until 21/10/21 providing there are no amendments to applicable regulations.

Issue dated 21/10/2020
