

RD Certificate Number: EW510B

Thermarestor T1150

Description

This is an assessment of the Thermarestor system, a pre-ignition solution to the problem of electrical fires caused by excessive heat resulting from loose connections, prolonged overloads and arcing.

Thermarestor T1150 is a single point detector used to monitor for abnormal heating of the electrical connection points of fused cut-outs, electricity meters, neutral bars etc.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the full scope of this registration.

Validity

This system has been checked for compliance in accordance with English and Welsh Building Regulations.

Registration was first issued on 09/01/15 and is valid until 09/01/19 providing there are no amendments to applicable regulations.

Issue dated 12/01/2018
