

RD Certificate Number: EW130

Eurobrick Brick Cladding Systems

Description

X-Clad and P-Clad External Cladding Systems are clay brick slip systems for use as protective/decorative cladding with or without a cavity over solid masonry, timber- and steel-frame and masonry external walls in new and existing domestic and non-domestic buildings. X-Clad is an insulated cladding system. P-Clad is a non-insulated system and is certified for use over 18m in conjunction with steel-frame substrate walls if constructed to the specification detailed within BBA 13/5079 P 7.3. I-Clad Internal Cladding System is a gypsum plasterboard used with clay brick slip facings for use as non-structural, decorative cladding for internal walls of timber and steel-frame construction above the damp-proof course in domestic and non-domestic buildings.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the full scope of this registration.

Validity

This system has been checked for compliance in accordance with English and Welsh Building Regulations.

Registration was first issued on 02/06/11 and is valid until 25/07/21 providing there are no amendments to applicable regulations.

Issue dated 09/07/2018
