Delivering acoustic solutions  
through LABC

# **ACOUSTICS SERVICES**

---

## **From the UK's biggest Building Control provider**

**LABC Acoustics** offers a UKAS Accredited Sound Insulation Testing\* service as required by Approved Document E (2015) of the Building Regulations. We provide design and consultancy, and noise and vibration survey services, together with advice and assistance in obtaining planning permission where noise and vibration are an issue. In addition we have represented numerous clients at Public Inquiries and Appeals and provide expert witness advice in litigation cases.

**LABC Acoustics** advises on noise nuisance from the complainant's perspective, or that of the noise emitter, where planning conditions for the developer have to be fulfilled. Our services include:

- Measuring and assessing noise against the current British Standards BS8233 & BS4142
- Dealing with low frequency noise complaints
- Long term monitoring of background noise and specific noise sources
- Technical reporting to show compliance with pre-agreed noise and vibration limits
- Vibration impact studies in accordance with planning requirements
- Vibration mitigation advice for vibration issues and re-radiated noise problems
- Monitoring construction noise and vibration and section 60 agreements
- Expert witness advice on suppression and control of noise from industrial and commercial applications

\*noise.co.uk (UKAS 2694) - one of only two acoustic consultancies in the UK that is UKAS Accredited to survey in accordance with BS7455 and the only consultancy accredited in accordance with BS4142.

**Contact us to find out more about how we can help you with a noise issue**

## **Providing UKAS Accredited Sound Insulation Testing\* services you can trust**

We pride ourselves on testing to a very high standard and, if any of your tests fail, we have considerable experience in fixing problems with sound insulation. Noise mitigation is built into our fees for the testing. We have years of experience in dealing with all parties involved in the build process from architects, surveyors, contractors, designers, building control and building warranty companies.

You will find us competitive and our UKAS status means you can be totally confident in the service we provide.

LABC is a membership organisation representing all local authority building control teams in England and Wales who work with industry and building professionals to ensure compliance with Building Regulations. It is a not-for-profit organisation dedicated to promoting public sector expertise. There are 3,000 surveyors and technical support staff working in local authority building control providing a consistent national service that is delivered at a local level. LABC Acoustics is an LABC partner.
