

RD Certificate Number: EWWS165

Kingspan Koolthem K15 Rainscreen Board

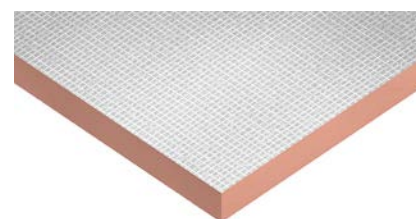

Description

Koolthem K15 Rainscreen Board is a rigid phenolic insulation board incorporating foil composite facings. It is intended for use as a thermal insulation layer to be applied to the external face of new and existing masonry or metal framed walls as part of a rainscreen cladding system.

K15 has been tested to comply with BR135:2013 for use in rain screen applications above 18 metres in height however see scope and conditions of certificate for more information.

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the full scope of this registration.

Validity

This system has been checked for compliance in accordance with English, Welsh and Scottish Building Regulations. LABC Warranty also accepts its use when installed and used in accordance with the Scope and Conditions of the Registered Details Certificate and in relation to LABC Warranty's current Technical Standards.

Registration was first issued on 28/08/13 and is valid until 30/03/19 providing there are no amendments to applicable regulations.

Issue dated 24/03/2016
